EXPERIENCE

Software Developer

08/2023 - 12/2023

Sandfits Foundries

Project Name: Moulding

Technology: Angular, Typescript, Express.js, MSSQL, Node.js, REST API, HTML, CSS, Bootstrap

Responsibilities:

- Created comprehensive documentation, reports, and inline comments for 100% of the code and work completed using Angular.
- Tracked projects in real time using live data.
- Provided up-to-date progress evaluations.
- Enhanced data security and improved teamwork by quickly identifying and resolving issues, leading to a more efficient and secure work environment.

Software Developer

01/2024 - 05/2024

Sandfits Foundries

Project Name: Subcontract - Term Master, Subcontract-PO

Technology: Angular, Typescript, Express.js, MSSQL, Node.js, REST API, HTML, CSS, Bootstrap

Responsibilities:

- Developed and maintained the front-end using Angular and Typescript for a seamless user experience.
- Designed and integrated RESTful APIs using Node.js and Express.js to ensure efficient data communication.
- Managed MSSQL databases, optimizing queries for better performance and reliability.
- Stores details such as payment terms, delivery schedules, penalties, and approval workflows.
- Created responsive UI components using HTML, CSS, and Bootstrap to enhance usability.
- Allows updates and versioning to track changes over time.
- A dedicated module for creating and managing subcontractor purchase orders.
- Links with the **Term Master** to ensure consistency in agreements.
- Tracks real-time progress and updates status using live data.

Software Developer

06/2024 - Present

Sandfits Foundries

Project Name: Store Management System

Technology: Angular, Typescript, Express.js, MSSQL, Node.js, REST API, HTML, CSS, Bootstrap

Responsibilities:

- Developing and maintaining the front-end of the e-commerce store using Angular and Typescript.
- Implementing RESTful APIs with Express.js and integrating them with MSSQL for data management.
- **Mobile-first approach** – Design for smaller screens first and scale up.
- **Flexible grid system** – Use Bootstrap's grid for fluid layouts.
- **Media queries** – Adjust styles for different screen sizes.
- **Adaptive components** – Ensure buttons, menus, and images adjust properly.
- Based on user rights and Menu rights To view and Approve
